

# Let's Talk Mexican

A review of the everyday Spanish spoken in the southwest border region of the United States.

**Instructor:** Rogelio Camacho, Ph.D.

*One single topic, two ways to learn it, and ten different classes. These eye-opening and fun-filled classes are offered in two of the new CIMCE modalities: Instructor-Led (five 3-hour classes for a total of 15 hours) and Non-Instructor-Led (five 3-hour classes for a total of 15 hours), each with its own approved CIMCE number. The combination of both modalities will grant you the required 30 hours of continuing education.*

## Instructor-Led (I-L)

In this highly interactive 15-hour presentation (five 3-hour segments), court interpreters will identify, describe, analyze and discuss everyday Spanish frequently used in the region. Participants will compile a Spanish/English glossary of at least 1,500 informal, commonly used words and expressions not considered standard Spanish.
